■ **Researcher information**

Contact

Email: oguchi@computer.org ／TEL: 03-5978-5379 ／FAX: 03-5978-5379

Major

Information Sciences, Network Computing Middleware

■ **Research topics**

Next-Generation Network Infrastructure and Advanced Applications

Keywords

Cloud Computing, Android, Wireless Communication Protocol, Lifelog Analysis, ITS

Contents

■ Overview (background, goal, detail)
Computer network technology is evolving quickly and volume of data
is explosively increasing. We are investigating next-generation network
infrastructure and advanced applications in this field.

■ Process, case study
Interference among mobile routers / Android communication controls
/ Energy saving of hybrid cloud / Lifelog data quality analysis

■ Potential (applications, future goals)
We have been practiced collaborative research projects with many
companies/research institutes.

Potential of social/industrial contribution

■ Joint research
■ licensing
■ technical consulting / knowledge sharing
