

## STUDY TOUR 2

### **The Tokyo Rinkai Disaster Prevention Park**

In the event of a large-scale disaster, such as an earthquake centered below Tokyo, The Tokyo Rinkai Disaster Prevention Park acts as a central base of operations for disaster prevention in the Tokyo Metropolitan Area that houses emergency response facilities including local disaster management headquarters, as well as institutions that compile disaster-related information and coordinate emergency disaster measures. The park is also a disaster prevention facility that acts as a core base camp for regional assistance units and a base of support for disaster medical care that functions in an integrated manner with the Higashi Ogishima region (Kawasaki City) distribution control center.
