Major

Developmental Biology, Cell Biology, Science Education, Science Communication

■ Research topics

Science education and communication

Keywords

science education, science communication

Contents

■ Overview (background, goal, detail)

In Science & Education Center, we provide science support teams for elementary schools and junior high schools to improve science teaching. To increase the initiatives of classroom teachers in collaborating classes, we believe they play a role of science communicator.

■ Process, case study

1) Retrieval system for scientific research by students.

■ Potential (applications, future goals)

Retrieval system for scientific research by students

Intellectual properties (Patents, computer programs), productization, publications and social/industrial contributions

- Retrieval system for scientific research by students <http://sec-db.cf.ocha.ac.jp/index.php>

Potential of social/industrial contribution

■ Joint research/ licensing / technical consulting / knowledge sharing (open courses, workshops, publications)

1) Development of retrieval system for scientific research by students.
