Major

Educational Development Studies, Comparative and International Education,
Early Childhood Care and Development Studies

■ Research topics

Implementation and Evaluation of Educational Aid to Developing Countries

Keywords

Educational Development, International Cooperation in Education, Early Childhood Care and Education, Training Program, Evaluation

Contents

■ Overview (background, goal, detail)

Our studies and researches on educational development are now being utilized for the design and implementation of the international cooperation project, such as training program for African countries, technical assistances for early childhood development and primary education.

■ Process, case study

- (1) Implementation and Evaluation of Training Program in Early Childhood Education and Care
- (2) Development of Textbook and Materials for International Cooperation in the Field of Early Childhood and Care
- (3) Implementing Early Childhood Development Support to Overcome Educational Disparities

Intellectual properties (Patents, computer programs), productization, publications and social/industrial contributions

1. Publication of "Handbook of Early Childhood Education 2" and translation of "Handbook of Early Childhood Education"
2. Implementation of Training Program for the Improvement of Early Childhood Education and Care in Africa

Potential of social/industrial contribution

■ Technical consulting

Design and Implementation and Evaluation of Training Program for the Improvement of Education in Developing Countries
